Sewer Project Update

LBT Commissioner Bayard recently provided the following update:

- The project will be put on hold by June 15th.
- All equipment will be removed from the median.
- The median will be graded and seeded.
- The project will continue after the summer.

A number of lane entrances leading from the Boulevard have pavers or paved surfaces. **The contractor is responsible for restoring the lane entrances.**

All gave some, some gave all. Remember them this Memorial Day.
